

FREESTYLE

DRONE SESSION BACKPACK

10 fun filled liters of drone exploration.

The Drone Session Backpack is a convenient, compact and affordable solution for the smaller fun drones. Secure your drone inside the backpack, slide your controller in the dedicated pocket and you are ready to go.

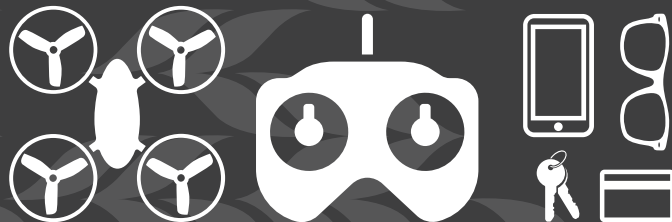

A drone with a diagonal wingspan up to 28 cm fits inside. Larger drones can be secured to the outside.

With this convenient backpack you can discover all the fun of drone flying, anywhere.

WHAT CAN YOU BRING

Stores a drone with a diagonal wingspan up to 28 cm on the inside, a controller and some small personal items.

FEATURES

- Velcro strap on the inside to secure your drone.
- Drone securing system on the outside, for quick access or for those slightly bigger drones.
- Controller pocket on the inside.
- Water resistant outer material to protect your gear against light rain.
- Reflective webbing detail on the front.
