

IMAGING

| DRONE LANDING PAD

Safely take-off and land your drone on any terrain.

Whether you are on the beach or on a misty heath, Torvol's Drone Landing Pad makes sure no dirt gets into your motors or onto your lens. It keeps any large and medium sized drone clean and dry.

The landing pad conveniently folds into a carrying pouch, which is compact enough to store inside the Torvol Drone Adventure Backpack. 3 strong ground pegs are included to keep your landing pad in place during windy days.

FEATURES

- Handles big and medium sized drones.
- Fits inside the laptop compartment of Torvol's Drone Adventure Backpack.
- The water resistant fabric creates a clean and dry take-off and landing zone.
- Printed cardinal points for orientation.
- Bright yellow color enhances visibility from above.
- 85 cm diameter unfolded.
- 28 cm diameter folded.
- 3 plastic ground pegs included.
- Carrying pouch included.
